

## GLOSSARY OF IMAGE DESCRIPTORS

*This document has been created by IP Australia in April 2005 to assist its customers in searching for trade mark images on the Trade Marks Register.*

*The document provides a list of all the terms IP Australia uses to help describe images, or parts of images, within a trade mark. The pictures, many of which come from registered trade marks, are used only to demonstrate the meaning of some of the terms.*

IP Australia recognises the intellectual property rights of the owners of all registered trade marks used in this document. Any unauthorised use of the images may violate trade mark and copyright laws.

### Revision History

Date	Changes
7 Apr 2005	Original issue.
26 Jun 2005	Replace image term 'grotesque' with 'stylised'.
27 Oct 2005	Document control template applied. Information unchanged.
